The Agency for Toxic Substances and Disease Registry (ATSDR) and the Centers for Disease Control and Prevention (CDC) announce the following meeting.

Name: Public Meeting of the Native American Working Group (NAWG), in association with the meeting of the Citizens Advisory Committee on Public Health Service Activities and Research at DOE Sites: Hanford Health Effects Subcommittee.

Time and Date: 1 p.m.-5 p.m., March 15, 1995.

Place: WestCoast Ridpath Hotel, 515 West Sprague Avenue, Spokane, Washington 99204, telephone (509) 838-2711, FAX (509) 747-6970.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 50 people.

Background: A Memorandum of Understanding (MOU) was signed in October 1990 and renewed in November 1992 between ATSDR and DOE. The MOU delineates the responsibilities and procedures for ATSDR's public health activities at DOE sites required under sections 104, 107, and 120 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund"). These activities include health consultations and public health assessments at DOE sites listed on, or proposed for, the Superfund National Priorities List and at sites that are the subject of petitions from the public; and other health-related activities such as epidemiologic studies, health surveillance, exposure and disease registries, health education, substance-specific applied research, emergency response, and preparation of toxicological profiles.

In addition, under an MOU signed in December 1990 with DOE, the Department of Health and Human Services (HHS) has been given the responsibility and resources for conducting analytic epidemiologic investigations of residents of communities in the vicinity of DOE facilities, workers at DOE facilities, and other persons potentially exposed to radiation or to potential hazards from non-nuclear energy production and use.

HHS delegated program responsibility to CDC.

Community involvement is a critical part of ATSDR's and CDC's energy-related research and activities and input from members of NAWG is part of these efforts. NAWG will work with the Hanford Health Effects Subcommittee to provide input on Native American health effects at the Hanford, Washington, site.

Purpose: The purpose of this meeting of NAWG is to discuss Native American membership and participation on the Hanford Health Effects Subcommittee, government-to-government working relations with ATSDR and CDC, and issues related to site restoration and waste management options at the Hanford DOE site.

Matters to be Discussed: Agenda items will include options for other types of relationships between the tribes and ATSDR and CDC regarding the study of health effects from past, current, or future release of radioactive and hazardous materials into the environment at Hanford and proposed actions based on the findings of ATSDR and CDC health research and public health activities.

Agenda items are subject to change as priorities dictate.
